- Preliminary task

  - Please refer to the user guide of CM document to learn how you can use CM.
  - URL: https://sites.google.com/site/kuccslab/research/cm

- Term-project proposal and design report

  - Submit a proposal and design document.

  The report should include following chapters.
  1. Team member information and role
     A. Present contribution ratio of each team member.
        i. Sum of contribution ratio of all members should be 100%.
        ii. For example, if a member of a three-member team satisfy his/her responsibility, the contribution ratio is 33.3%.
  2. Project goal
     A. Describe the goal of your project
        i. Present what kind of application your team will develop using CM.
        ii. For your motivation, please refer to the past project topics that will be given as an attached document at the Team project menu of the e-campus site.
  3. Project design
     A. Describe details of your system design.
     B. Your (server or client) application should use the CM library (cm.jar) and CM APIs.
     C. Describe how your program will use CM APIs.

  - How to submit
  - ■ Submit to e-Campus system
  - ■ Only representative member may submit the report.

  - Due date
  - ■ **Please refer to the notice at the Team Project menu of the e-campus site.**
